Stop Ontario's Carbon Tax Court Challenge PETITION

TO The Legislative Assembly of Ontario:

WHEREAS we condemn the legal challenge of the carbon tax and the cancellation of the cap-and-trade program, reducing government revenue by $1.9 billion, which could be used to improve our hospitals and schools.

WHEREAS Premier Ford had vowed to reassess Ontario's position on the legal challenge against the carbon tax if Prime Minister Justin Trudeau's Liberals were re-elected, vowing to listen to the people of Ontario and democracy.

WHEREAS the Ontario government does not have a serious plan to adequately address the impacts of climate change, with proposed policies projecting to be 59% more costly for businesses and households at $334 million in 2022.

WHEREAS the federal carbon tax aligns with Ontarians commitment to ensuring we meet our targets with the environment and the Ford government's gas pump stickers are inaccurate and do nothing to improve the environment.

WE the undersigned petition the Legislative Assembly of Ontario as follows:

That all members of the Legislative Assembly of Ontario stand up for the people of Ontario's support for a plan to address climate change and commitment to reducing our carbon emissions so that Canada may meet its targets by 2030, and call on Premier Ford to stop Ontario's court challenge to the federal government's plan for climate change.
